

UNIL is a leading international teaching and research institution, with over 5,000 employees and 15,500 students split between its Dorigny campus, CHUV and Epalinges. UNIL and CHUV encourage excellence, individual recognition and responsibility. The Faculty of Biology and Medicine ([FBM](#)) and the Lausanne University Hospital ([CHUV](#)) are inviting applications for a position of:

FULL PROFESSOR
Physician, Head of the anesthesiology Service

Starting date: To be agreed

Place : Lausanne, Switzerland

[The anesthesiology Service](#) is one of the largest medical and nursing Services of the CHUV with nearly 100 physicians and more than 110 nurses. Its main missions are to ensure the comfort and safety of patients during medical or surgical procedures and to provide optimal analgesia to reduce, or even eliminate, the physiological and psychological consequences of interventional acts. The evolution of knowledge in medicine and anesthesia associated with technological progress push the limits ever further. Aware of the complexity and the challenges linked to the field, collaboration and consultation with our partners is preferred. Collaboration with the various anesthesiology services of peripheral or university hospitals is reinforced every year, both in terms of training, teaching and research, as well as with other universities (eg EPFL) as well as with the pharmaceutical and biomedical industry for research purposes.

Main tasks :

- The appointee will be responsible for the organization, planning, development and delivery of all clinical, teaching and research activities in anesthesiology typical of a university hospital.
- She/He will have the experience and leadership qualities necessary to ensure the coordination of service units and the development of internal/external collaborations/achievements, both clinically and academically.
- She/He will personally conduct high-level research financed by external expert funds and published in quality scientific journals.
- She/He will ensure the organization of pre-graduate, post-graduate and continuous education in the field of anesthesiology, while participating in it.

Desired profile :

- ISFM specialist title or equivalent (Mebeko recognition).
- Wide clinical experience in anesthesiology and related fields.
- Wide recognized skills in leading a large and multisite team, in the fields of organization, interdisciplinary collaboration and networks, as well as in administrative and human resources management.
- Experience in conducting independent research supported by external funds.
- Ability to set up clinical research programs that may be supported by external funds.
- Good knowledge of French or ability to acquire it quickly.

Further information may be obtained from Prof. Nicolas Demartines (demartines@chuv.ch), Head of the Department and Chair of the selection committee

Applications, in English, will include a motivation letter, a curriculum vitae, a copy of the five most relevant publications, as well as names and contact information of three referees, a brief statement of research interests and teaching experience and a copy of diplomas. They should be submitted online by **August 23rd 2020 (23:59 GMT+1)** to www.fbm.unil.ch/releve/application/ as a single PDF file.

The job description is available on [the same link](#) (or QR code).

We offer a pleasant working atmosphere in a multicultural, diverse, and dynamic academic environment. There are possibilities for continuing professional education and a multitude of activities and other benefits to discover.

UNIL and CHUV are committed to promoting gender equality and diversity and strongly encourage applications from female candidates. www.unil.ch/egalite
