A place of teaching, research and life, UNIL brings together more than 14,000 students and nearly 4,000 employees, teachers and researchers. Ideally located by lake and downtown, its campus brings together some 120 nationalities. The Faculty of Biology and Medicine of the University of Lausanne (FBM), Switzerland, and the University Medical Centre of Lausanne (CHUV) invite applications for a position of:

**Head of the nephrology Service**
within the Department of medicine
with an academic rank title

The **nephrology Service**

The nephrology Service is part of the CHUV's Department of Medicine and provides a variety of services in all areas (ambulatory and hospital) of nephrology and dialysis. It actively collaborates with the different Services and Departments of the CHUV and the FBM, including the transplant Service for all aspects related to kidney transplants. It is a clinical benchmark, has at the academic level a varied and active research area and is responsible for pre-graduate and postgraduate teaching in nephrology. The nephrology Service also has recognized expertise in the field of arterial hypertension.

**Main job mission:**
- Leading the nephrology Service.
- Ensuring the post-graduate and continuing education teaching tasks.
- Ensuring the academic tasks, research and teaching.
- Take part actively in the creation and management of the future “Nephrology and Transplantation Center”.

**Desired Profile:**
- Physician Diploma and Nephrology Specialist title (ISFM or equivalent).
- Clinician with a strong clinical experience in nephrology (general nephrology care, dialysis, hypertension and in the different nephrology areas).
- Skills and experience in team management, in organization field, in interdisciplinary collaboration and networks, as well as in administrative management and human resources.
- Excellence in the pre-graduate and post-graduate teaching.
- Experience in conducting an independent research and ability to establish a clinical/translational research program supported by external funds.
- Good knowledge of French or ability to quickly acquire it, proficiency in English.

The CHUV and the FBM preferably seek a nephrologist with skills to promote interdisciplinary collaborations and a strong desire for collaboration and exchange in the organization, planning and administrative management of nephrology and renal transplantation center. The successful candidate will be required to actively collaborate with the Head Physician of the Transplant Service for the creation of a "Nephrology and Transplantation Center", which will be co-directed alternately by the two Heads of Service.

Further information can be obtained from Prof. Nicolas Demartines ([Demartines@chuv.ch](mailto:Demartines@chuv.ch)), Head of Service.

Applications must be formulated in English and should include the motivation letter, the curriculum vitae, the list of publications with a copy of the five most relevant ones, the list of external funding obtained, a brief description of the research program and of teaching experience and a copy of diplomas. They should be submitted online by **June 24th 2018** to [wwwfbm.unil.ch/releve/application/](http://wwwfbm.unil.ch/releve/application/) as a single PDF file.

The job description as well as a description of the Service are available on the same link (or QR code).

*Seeking to promote an equitable representation of women and men among their staff, UNIL and CHUV encourage applications from women.*
