

Transbugnon Seminars

CHUV Coordinators:

[Phillip Shaw](#)

[Ivan Stamenkovitch](#)

Programme for January-June 2010

Tuesday 12 January

Stefan KOHLER

PACTT, Technology Transfer UNIL/CHUV

Publish or perish: comment augmenter l'impact de votre recherche par un brevet

Auditorium Auguste Tissot, CHUV at 12:00

Tuesday 26 January

Jean David ROCHAIX

NCCR Plant Survival in Natural & Agricultural Ecosystems UNIGE, Geneva

Plants and light: a love-hate relationship mediated by chloroplast protein kinases and phosphatases

Auditorium Auguste Tissot, CHUV at 12:00

Tuesday 16 February

Ari HELENIUS

Institute f. Biochemie ETHZ, Zurich

How Animal Viruses enter their host cells

Auditorium Auguste Tissot, CHUV at 12:00

Thursday 18 February

Dave TUVESON

CRUK Cambridge Research Labs, UK

Pancreatic Cancer Medicine

Auditorium Ch. Olivier, CHUV at 12:00

Tuesday 23 February

Ed FEIHL

Dept of Biology & Biochemistry Univ. Bath, UK

Genome-wide SNP discovery within ST239, a global clone of methicillin resistant S. aureus (MRSA)

Auditorium Ch. Olivier, CHUV at 12:00

Tuesday 2 March

Robbie LOEWITH

Dept of Molecular Biology UNIGE, Geneva

Novel TORC1 functions suggested by the rapamycin-sensitive phosphoproteome

Auditorium Auguste Tissot, CHUV at 12:00

Tuesday 16 March

Jean GRUENBERG

Dept of Biochemistry UNIGE, Geneva

Endosome Biogenesis

Auditorium Auguste Tissot, CHUV at 12:00

Tuesday 30 March

Rainer FRIEDRICH

FMI Basel

Neuronal circuits and computations in the olfactory system

Auditorium Auguste Tissot, CHUV at 12:00

Tuesday 13 April

Erich NIGG

UNIBAS, Basel

Cell Cycle Control of Genome Integrity: Focus on Mitosis and the Centrosome Cycle

Auditorium Auguste Tissot, CHUV at 12:00

Tuesday 27 April

Vivek MALHOTRA

Dept of Cell & Developmental Biology, CRG, Barcelona, Spain

Protein secretion: unconventional and conventional

Auditorium Auguste Tissot, CHUV at 12:00

Tuesday 11 May

Beatrice LANZREIN

Institute of Cell Biology, UNIBE, Bern

Symbiotic viruses of parasitic wasps: tools to manipulate the host

Auditorium Auguste Tissot, CHUV at 12:00

Tuesday 25 May

Shiv PILLAI

Harvard Medical School, Mass. General Hospital, Harvard University, USA

A sialic acid acetyltransferase regulates signaling, tolerance and autoimmunity in mice and humans

Auditorium Auguste Tissot, CHUV at 12:00

Tuesday 8 June

Dennis SGROI

Dept of Pathology, Mass. General Hospital, Harvard University, USA

The HOXB13:IL17BR-Molecular Grade Index Breast Cancer Biomarker

Auditorium Auguste Tissot, CHUV at 12:00

!!!CANCELLED!!!

Tuesday 22 June

Sridhar RAMASWAMY

Harvard Stem cell Institute, Mass. General Hospital, Harvard University, USA

To be announced

Auditorium Auguste Tissot, CHUV at 12:00
