

Transbugnon Seminars Series - Fall 2011

Transbugnon Seminars

Contacts: Phillip.Shaw@chuv.ch & Ivan.Stamenkovic@chuv.ch

Dates	Seminars
Tuesday 27th September	Transbugnon Seminar Goranka TANACKOVIC Département de génétique médicale, UNIL <i>Generalized defects in spliceosome composition and pre-mRNA splicing are associated with retinitis pigmentosa in humans</i> Auditorium Auguste Tissot, CHUV at 12:00
Tuesday 4th October	Transbugnon Seminar Thoas FIORETOS Lund, Sweden <i>Genetic Changes in Leukemia: From Discovery to Improved Diagnostics and New Therapeutic Targets</i> Auditorium Auguste Tissot, CHUV at 12:00
Tuesday 11th October	Transbugnon Seminar Darius MORADPOUR Service de gastro-entérologie, CHUV <i>New insights into the replication and pathogenesis of hepatitis C virus</i> Auditorium Alexandre Yersin, CHUV at 12:00
Tuesday 8th November	Transbugnon Seminar Patrick VIOLLIER Dept. Microbiology & Molecular Medicine Faculty of Medicine / CMU, University of Geneva <i>Dissecting pathways regulated by bacterial cell polarity</i> Auditorium Alexandre Yersin, CHUV at 12:00
Tuesday 22nd November	Transbugnon Seminar Maurice MATTER Service de chirurgie viscérale <i>Sentinel lymph node biopsy as a tool in surgical oncology</i> Auditorium Charlotte Olivier, CHUV at 12:00
Tuesday 6th December	Transbugnon Seminar Roman CHRAST Département de génétique médicale <i>Charcot-Marie-Tooth disease: from genetics to molecular pathomechanisms</i> Auditorium Alexandre Yersin, CHUV at 12:00
Tuesday 13th December	Transbugnon Seminar Keith HARSHMAN Genomic Technologies Facility, University of Lausanne Brian STEVENSON Vital-IT Group, Swiss Institute of Bioinformatics <i>Exomes: from sequencing to variations to annotations</i> Auditorium Charlotte Olivier, CHUV at 12:00
