

October 2010

Bibliography of Klaus Holliger

Please note that I pursue a senior author policy of placing the project leader at the end of the author list.

Publications with International Peer-Review

Books

1. Miller, R., Bradford, J., and **Holliger, K.**, (editors), 2010. *Advances in High-Resolution Near-Surface Seismology and Ground-Penetrating Radar*, Society of Exploration Geophysicists, Tulsa, Oklahoma, in press.
2. Pellerin, L., **Holliger, K.**, Slater, L., and Yaramanci, U., (editors), 2009. *Hydrogeophysics: Methods and Processes*, European Association of Geoscientists and Engineers, Houten, The Netherlands.
3. Goff, J.A., and **Holliger, K.**, (editors), 2003. *Heterogeneity in the Crust and Upper Mantle – Nature, Scaling and Seismic Properties*, Kluwer Academic/Plenum Publishers, New York.

Chapters in Books

4. Baron, L., and **Holliger, K.**, 2010. Poro-elastic analysis of the velocity dispersion and attenuation behaviour of multi-frequency sonic logs, in: *Advances in Near-Surface Seismology and Ground-Penetrating Radar*, eds. Miller, R., Bradford, J., and Holliger, K., Society of Exploration Geophysicists, Tulsa, Oklahoma, in press.
5. Irving, J., Scholer, M., and **Holliger, K.**, 2010. Inversion for the stochastic structure of subsurface velocity heterogeneity from surface-based geophysical reflection images, in: *Advances in Near-Surface Seismology and Ground-Penetrating Radar*, eds. Miller, R., Bradford, J., and Holliger, K., Society of Exploration Geophysicists, Tulsa, Oklahoma, in press.
6. **Holliger, K.**, Tronicke, J., Paasche, H., and Dafflon, B., 2008. Quantitative interpretation of hydrogeophysical and hydrological data: geostatistical approaches, in: *Overexploitation and Contamination of Shared Groundwater Resources*, ed. Darnault, C., Springer, New York, 67-82.
7. **Holliger, K.**, 2008. Groundwater geophysics: from structure and porosity to permeability? in: *Overexploitation and Contamination of Shared Groundwater Resources*, ed. Darnault, C., Springer, New York, 49-66.
8. Dafflon, B., Tronicke, J., and **Holliger, K.**, 2006. Inferring the lateral subsurface correlation structure from georadar data: methodological background and experimental evidence, in: *Geostatistics for Environmental Applications*, eds. Renard, P., Demougeot-Renard, H., and Froidevaux, R., Springer, New York, 467-478.

9. Sidler, R., and **Holliger, K.**, 2006. Kriging of scale-invariant data: optimal parameterization of the autocovariance model, in: *Geostatistics for Environmental Applications*, eds. Renard, P., Demougeot-Renard, H., and Froidevaux, R., Springer, New York, 63-74.
10. **Holliger, K.**, and Goff, J.A., 2003. A generalised model for the $1/f$ -scaling nature of seismic velocity fluctuations, in: *Heterogeneity in the Crust and Upper Mantle – Nature, Scaling, and Seismic Properties*, eds. Goff, J.A., and Holliger K., Kluwer Academic/Plenum Scientific Publishers, New York, pp. 131-154.
11. Robertsson, J.O.A., **Holliger, K.**, and Levander, A., 1996. Simulations of deep seafloor scattering experiments using HARVEST - An adaptive wave propagation regime simulation technique, in: *Benchmark Solutions in Reverberation and Scattering*, eds. King, D.B., Ching-Bing, S.A., Evans, R.B., and Davis, J.A., Naval Research Laboratory Book Contribution NRL/BE/7181-96-001, Washington, D.C.
12. Ansorge, J., **Holliger, K.**, Valasek, P., Finckh, P., Freeman, R., Frei, W., Kissling, E., Lehner, P., Maurer, H., Mueller, St., Smithson, S. B., and Stäuble, M., 1991. Integrated analysis of seismic normal incidence and wide-angle reflection measurements across the eastern Swiss Alps, in: *Continental lithosphere: deep seismic reflections*, eds. Meissner, R., Brown, L., Duerbaum, H.-J., Franke, W., Fuchs, K., and Seifert, F., *Am. Geophys. Un., Geodynamics Series*, **22**, 195-206.
13. Valasek, P., Frei, W., Stäuble, M., and **Holliger, K.**, 1990. Processing of the NFP20 seismic reflection traverses across the Swiss Alps by the ETH-Zurich data processing center, in: *Deep structures of the Alps*, eds. Roure, F., Heitzmann, P., and Polino, R., *Mem. Soc. geol. France*, **155**, 55-64.

Papers in Journals

14. Scholer, M., Irving, J., Binley, A., and **Holliger, K.**, Accounting for parameter correlation in the stochastic estimation of vadose zone hydrological properties from ground-penetrating radar data, *Water Resources Research*, submitted.
15. Belina, F., Irving, J., Ernst, J., and **Holliger, K.**, Viability and robustness of an iterative deconvolution approach for estimating the source wavelet during waveform inversion of crosshole georadar radar data, *J. Appl. Geophys.*, submitted.
16. Belina, F., Irving, J., Ernst, J., and **Holliger, K.**, Evaluation of the reconstruction limits of a frequency-independent crosshole georadar waveform inversion scheme in the presence of dispersion, *J. Appl. Geophys.*, submitted.
17. Koch, K., Kemna, A., Irving, J., and **Holliger, K.**, 2010. Impact of controlled changes in grain size and pore space characteristics on the hydraulic conductivity and spectral induced polarization response of "proxies" of saturated alluvial sediments, *Hydrology and Earth System Sciences*, submitted.
18. Baron, L., and **Holliger, K.**, 2010. Constraints on the permeability structure of alluvial aquifers from the poro-elastic inversion of multi-frequency P-wave velocity logs, *IEEE Trans. Geosc. Rem. Sens.*, accepted.

19. Irving, J., and **Holliger, K.**, 2010. Geostatistical inversion of seismic and GPR reflection images: what can we actually resolve?, *Geophys. Res. Lett.*, doi:10.1029/2010GL044852, in press.
20. Eggenberger, K., Muijs, R., Robertsson, J.O.A., van Manen, D.-J., and **Holliger, K.**, 2010. Estimation of the inelastic seismic material properties of the surficial seabed from multi-component marine seismic data, *Near Surface Geophysics*, doi:10.3997/1873-0604.2010032, in press.
21. Scholer, M., Irving, J., and **Holliger, K.**, 2010. Estimation of the correlation structure of crustal velocity heterogeneity from seismic reflection data, *Geophys. J. Int.*, doi: 10.1111/j.1365-246X.2010.04793.x.
22. Sidler, R., Carcione, J., and **Holliger, K.**, 2010. Simulation of surface waves in porous media, *Geophys. J. Int.*, doi: 10.1111/j.1365-246X.2010.04725.x.
23. Sidler, R., and **Holliger, K.**, 2010. Seismic anisotropy of the shallow sediment-covered seafloor: estimation and implications, *Geophys. J. Int.*, **181**, 521-531.
24. Suski, B., Brocard, G., Authemayou, C., Cosenza Muralles C., Teyssier, C., and **Holliger, K.**, 2010. Localization and characterization of an active fault in an urbanized area in central Guatemala by means of geoelectrical imaging, *Tectonophysics*, **480**, 88-98.
25. Dafflon, B., Irving, J., and **Holliger, K.**, 2010. Calibration of high-resolution geophysical data with tracer test measurements to improve hydrological predictions, *Advances in Water Resources*, **33**, 55-68.
26. Irving, J.D., Knight, R., and **Holliger, K.**, 2009. Estimation of the lateral correlation structure of subsurface water content from surface-based ground-penetrating radar reflection images, *Water Resources Research.*, **12**, W12404, doi:10.1029/2008WR007471.
27. Dafflon, B., Irving, J., and **Holliger, K.**, 2009. Use of high-resolution geophysical data to characterize heterogeneous aquifers: influence of data integration method on hydrological predictions, *Water Resources Research*, W09407, **45**, doi:10.1029/2008WR007646.
28. Dafflon, B., Irving, J., and **Holliger, K.**, 2009. Quantitative integration of high-resolution hydrogeophysical data: a novel approach to Monte-Carlo-type conditional stochastic simulations and implications for hydrological predictions, *J. Earth Sc.*, **20**, 580-91.
29. Dafflon, B., Irving, J., and **Holliger, K.**, 2009. Simulated-annealing conditional stochastic simulation using high-resolution geophysical data for the local-scale characterization of heterogeneous aquifers: application to crosshole georadar data, *J. Appl. Geophys.*, **68**, 60-70.
30. Belina, F.A., Ernst, J.R., and **Holliger, K.**, 2009. Full-waveform inversion of crosshole seismic data based on electromagnetic-acoustic analogies, *J. Appl. Geophys.*, **68**, 26-35.
31. Belina, F.A., Dafflon, B., Tronicke, J., and **Holliger, K.**, 2009. Enhancing the vertical resolution of surface georadar data, *J. Appl. Geophys.*, **68**, 26-35.

32. Perozzi, L., and **Holliger, K.**, 2008. Detection and characterization of referential flow paths in the downstream area of a hazardous landfill, *J. Env. Eng. Geophys.*, **13**, 343-350.
33. Sidler, R., Carcione, J., and **Holliger, K.**, 2008. On the evaluation of plane-wave reflection coefficients in anelastic media, *Geophys. J. Int.*, **175**, 94-102.
34. Suski, B., Ladner, F., Baron, L., Vuataz, F.-D., Philipposian, F., and **Holliger, K.**, 2008. Detection and characterization of hydraulically active fractures in a carbonate aquifer: results from self-potential, temperature and fluid conductivity logging along a 260-m-deep borehole in the Combioula hydrothermal system in the southwestern Swiss Alps, *Hydrogeology Journal*, **16**, 1319–1328.
35. Ernst, J.R., Maurer, H.R., Green, A.G., and **Holliger, K.**, 2007. Application of a new 2-D time-domain full-waveform inversion scheme to crosshole radar data, *Geophysics*, **72**, J53-J64.
36. Ernst, J.R., Maurer, H.R., Green, A.G., and **Holliger, K.**, 2007. Full-waveform inversion of crosshole georadar data based on 2-D finite-difference time-domain solutions of Maxwell's equations, *IEEE Trans. Geosc. Rem. Sens.*, **45**, 2807-2828.
37. Muijs, R., Robertsson, J.O.A., and **Holliger, K.**, 2007. Data-driven adaptive decomposition of multi-component seabed seismic recordings: application to shallow-water data, *Geophysics*, **72**, V133-V142.
38. Muijs, R., Robertsson, J.O.A., and **Holliger, K.**, 2007. Prestack depth migration of primary and surface-related multiple reflections, Part I: Imaging, *Geophysics*, **72**, S59-S69.
39. Muijs, R., Robertsson, J.O.A., and **Holliger, K.**, 2007. Prestack depth migration of primary and surface-related multiple reflections, Part II: Identification and removal of residual multiples, *Geophysics*, **72**, S71-S76.
40. Boeniger, U., Tronicke, J., **Holliger, K.**, and Becht, 2006. A., Multi-offset vertical radar profiling for subsurface reflection imaging. *J. Eng. Env. Geophys.*, **11**, 289-298.
41. Musil, M., Maurer, H.R., **Holliger, K.**, and Green, A.G., 2006. Internal structure of an Alpine rock glacier based on crosshole georadar traveltimes and amplitudes, *Geophysical Prospecting*, **54**, 273-285.
42. Paasche, H., Tronicke, J., **Holliger, K.**, Green, A.G., and Maurer, H.R., 2006. Quantitative integration of multi-method geophysical surveys: subsurface zonation and petrophysical parameter estimation using fuzzy *c*-means cluster analysis, *Geophysics*, **71**, H33-H44.
43. Ernst, J.R., **Holliger, K.**, Maurer, H.R., and Green, A.G., 2006. Realistic FDTD modeling of borehole georadar antenna radiation: methodology and application, *Near Surface Geophysics*, **4**, 19-30.
44. Tronicke, J., and **Holliger, K.**, 2005. Quantitative integration of hydrogeophysical data: conditional geostatistical simulation for characterizing heterogeneous alluvial aquifers, *Geophysics*, **70**, H1-H10.
45. Lampe, B., and **Holliger, K.**, 2005. Resistively loaded antennas for ground-penetrating radar: a modeling approach, *Geophysics*, **70**, K23-K32.

46. Tronicke, J., and **Holliger, K.**, 2004. Effects of gas- and water-filled boreholes on the amplitudes of crosshole georadar data as inferred from experimental evidence, *Geophysics*, **69**, 1255-1260.
47. Muijs, R., Robertsson, J.O.A., and **Holliger, K.**, 2004. Data-driven adaptive decomposition of multicomponent seabed recordings, *Geophysics*, **69**, 1329-1337.
48. **Holliger, K.**, and Maurer, H.R., 2004. Effects of stochastic heterogeneity on ray-based tomographic inversion of crosshole georadar amplitude data, *J. Appl. Geophys.*, **56**, 177-193.
49. **Holliger, K.**, Lampe, B., Meier, U., and Lambert, M., 2004. Realistic modelling of surface ground-penetrating radar antenna systems: where do we stand?, *Near Surface Geophysics*, **2**, 15-23.
50. Tronicke, J., **Holliger, K.**, Barrash, W., and Knoll, M.D., 2004. Multivariate analysis of crosshole georadar velocity and attenuation tomograms for aquifer zonation, *Water Resources Research*, **40**, W01519, doi:10.1029/2003WR002031.
51. Muijs, R., Robertsson, J.O.A., Curtis, A., and **Holliger, K.**, 2003. Near-surface seismic properties for elastic wavefield decomposition: estimates based on multicomponent land and seabed recordings, *Geophysics*, **68**, 2073-2081.
52. Lampe, B., and **Holliger, K.**, 2003. Effects of fractal fluctuations in topographic relief, permittivity, and conductivity on ground-penetrating radar antenna radiation, *Geophysics*, **68**, 1934-1944.
53. Gross, R. Green, A.G., Horstmeyer, H., **Holliger, K.**, and Baldwin, J., 2003. 3-D georadar images of an active fault: efficient data acquisition, processing and interpretation strategies, *Subsurf. Sens. Techn. Appl.*, **4**, 19-40.
54. Green, A.G., Gross, R., **Holliger, K.**, Horstmeyer, H., and Baldwin, J., 2003. Results of 3-D georadar surveying and trenching the San Andreas Fault near its northern landward limit, *Tectonophysics*, **368**, 7-23.
