

## Online application for the 2021 Summer Undergraduate Research (SUR) Programme

The application must be complete, INCLUDING Recommendation letters by January 31st, 2021, midnight CET.

**INCOMPLETE OR LATE APPLICATIONS CANNOT BE CONSIDERED.** As well as those not complying with the requirements.

Given that participation in a summer school requires some preparation for the selected candidates and in view of the uncertain situation we are facing, we have decided to limit applications to students residing in a member or associate member country of the 9th Framework Program (also known as Horizon Europe) as listed on our website and in the online application 

**Only countries for which customs requirements are facilitated are listed.**

We recommend that you prepare all necessary text in a separate file and paste it into this application just before submitting.

However, you can save your unfinished application anytime by clicking on "Resume later". Enter a name, password and email address for your application and click "save now". An automatic email containing the details as well as a link will be sent to your email address. Reload your application by clicking on that link.

Once you are registered, you can save your online application as many times as you want by simply clicking on "Resume later" but this time you do not have to fill out the box again. Any modification you have made will be saved before you close the application programme.

You will find the PDF procedure on our website under [How to Apply](#).

*Note that questions preceded by the symbol \* are mandatory. If a particular question is not applicable to you, type in a period or any other symbol.*

### Personal information

\* Status

Choose one of the following answers

\* Lab III name.

\* Reasons:  
(max. 100 words)

### How did you learn about our programme?
