

A place of teaching, research and life, UNIL brings together more than 15,000 students and nearly 5,000 employees, teachers and researchers. The Faculty of Biology and Medicine of the University of Lausanne ([FBM](#)) and the University Hospital of Lausanne ([CHUV](#)) invite applications for a position of:

**Senior physician with professorial rank
in the field of Clinical Pharmacology
at the [Service of Clinical Pharmacology](#)**

Starting date: January 1st 2020 or to be agreed

Place: Lausanne, Switzerland

Rate of activity: 100%

Attached to the [Department of Laboratories](#), the Service of Clinical Pharmacology works on the rational, safe and economic use of medicinal drugs by offering its expertise through consultations, research and teaching. The Service's Directorate is looking for a collaborator to participate in clinical services, research and education activities, in particular with the aim of assisting the head of the Service in the direction and coordination of Pharmacology teaching to medical students at the Faculty of Biology and Medicine (FBM).

Main tasks of the position:

- Provide and strengthen the teaching of Pharmacology to medical students at the FBM.
- Assisting the head of the Service in the direction and coordination of Pharmacology teaching at the FBM.
- Participate in the Service's clinical activities: clinical pharmacology consultations, pharmacovigilance, teratovigilance, therapeutic drug monitoring, support to rational drug prescription throughout the hospital.
- Provide supervision and training for assistant physicians and senior registrars of the Service.
- Participate in the development and conduct of clinical studies: drugs trials, investigation of new therapeutic monitoring methods, population studies.
- Develop proper projects of clinical research and service to patients in an own specialized field, while securing the necessary funding.
- Participate in delegated service management activities and contribute in defining the pedagogical, clinical and academic development strategies of the Clinical Pharmacology Service.

Desired profile:

- Specialist title (ISFM or equivalent) in clinical Pharmacology and Toxicology.
- Experience as a senior physician in an academic institution and in academic teaching at pre- and post-graduate levels.
- Experience in supervising academic work (thesis, master, etc.).
- Competence in team conduct, organization, interdisciplinary collaboration, networking, administration and human resources management.
- A good proficiency in French is essential for this position.

Seeking to promote an equitable representation of women and men among its staff, UNIL and CHUV encourage applications from women.

Preference will be given to a personality open to communication and cooperation, able to stimulate young colleagues destined for an academic career.

Further information can be obtained from Prof. Romano Regazzi (Romano.Regazzi@unil.ch), chairman of the search committee.

Applications should include a motivation letter, a curriculum vitae, a list of publications highlighting and joining the five most significant ones, a brief statement of pedagogical views, a brief statement of past and projected research, and a copy of diplomas. They must be sent as a single PDF File until **August 15th 2019 (23:59 GMT+1)** to wwwfbm.unil.ch/releve/application.
