

DBS Seminars 2nd quarter 2021

Department of biomedical Sciences, Rue du Bugnon 7
Zoom meeting (all Zoom links will be sent directly by email), at 12:15

March 30th

"Role of Rab small GTPases in polarized trafficking in epithelial cells"

Prof. Mitsunori Fukuda

Laboratory of Membrane Trafficking Mechanisms, Department of Integrative Life Sciences, Graduate School of Life Sciences, Tohoku University

Host: Prof. Christian Widmann

April 27th

Title to be confirmed

Prof. Antonio Zorzano

Institute for Research in Biomedicine (IRB Barcelona),
University of Barcelona, Spain

Host: Prof. Francesca Amati

May 11th, at 11:15

"Advances and setbacks in prion biology"

Prof. Adriano Aguzzi

Institute of Neuropathology,
University Hospital of Zürich

Host: Prof. Rosa Paolicelli

June 1st

"Tanycyte, a multifunctional player in the control of energy balance"

Prof. Fanny Langlet

Département des sciences biomédicales
Université de Lausanne

Host: Prof. Romano Regazzi
