

Looking for a Teaching Assistant (TA) for Fall semester 2023

Course: "Ethics and Law of AI" (Master level, EPFL)

Candidate: ideally a PhD student or a MA student with prerequisites mentioned below
2 to 3 hours per week during the semester

The course will have 2h of course and 1h of exercise. The exercise will give students the opportunity to explore use-cases and discuss concrete implementations of ethical/legal reflections on AI. The exercise is akin to a discussion session in small groups.

TA duties:

- a) support the students in their group discussion (helping students structure their discussion)
- b) be first point of contact for questions students might send per email
- c) coordinate practical issues linked to the room and the like.

Presence on campus: at minimum 1 hour on Tuesday during the exercise session of the class (15h00-16h00)

Prerequisites: TA should bring an interest in ethical debates on digital technologies. Ideally they would bring a specific expertise in one of the main questions of the course (data, algorithms, design, social justice, law, science and technology study, sociology of digital technologies).

Application: please send your CV and a short explanation of your motivation in an email to johan.rochel@epfl.ch
