descripteurs 1-2

descripteur 1

les conditions de prise en charge de l'information sont maintenues	Along with the jurisdiction, the EDK engaged itself to create a harmonious scholastic programme that includes all schools of Switzerland and encloses all the objectives that the Confederation is trying to accomplish since its first questioning concerning the role of English and its implication in the Swiss multilingualism. Indeed, according to the EDK, this agreement is an appropriate solution in order to preserve the multilingualism and the scholastic traditions.	☒ ☒ ☒

descripteur 2

les nuances sémantiques sont rendues	HarmoS not only promotes multilingualism in every linguistic area through the early learning of two different languages but it also engages in the interregional exchanges of students and teachers according to the "Promotion of the comprehension and the exchanges among linguistic communities". This measure is one of the promising points of the programme: to promote multilingualism all around Switzerland, because it is not only a linguistic promotion but also a cultural one.	☒ ☒ ☒
