

The evaluation process is a detailed version of the study plan. The information provided in the study plan takes precedence. The information could be completed by the teachers in various forms (e-mails, course materials, Moodle platform, etc.).

MODULE 1				
Courses	Responsible teacher	Type of evaluation		Final mark
		Exam	Validation	
Human Anatomy	Varlet V.	-	Yes	MCQs : arithmetical mean
Medical Technical Devices	Varlet V.	written 1h	No	mark of the written exam
Epidemiology & Biological Agents	Fauvel A.	-	Yes	70% written report 30% oral presentation
Thanatopraxy Through the Ages, the Civilizations and the Religions	Varlet V.	written 2h	No	mark of the written exam
Exploring Death with Social Sciences	Varlet V.	-	Yes	70% written report 30% oral presentation
Human Thanatology	Forbes S.	written 1h	No	mark of the written exam
Paleotaphonomy and Animal Taphonomy	Daley A.	-	Yes	50% written report 50% oral presentation
Humanitarian Forensic DVI Actions	Guyomarc'h P.	oral 15 min	Yes	70% written report 30% oral exam
Introduction to Scientific Writing and Expertise Analysis	Chalifour A.	oral 15 min	Yes	60% written report 40% oral exam

MODULE 2				
Courses	Responsible teacher	Type of evaluation		Final mark
		Exam	Validation	
Decomposition: Biological Processes, Ecology and Recycling	Varlet V.	oral 15 min	Yes	40% written report 60% oral exam
Ecotoxicology	Chèvre N.	-	Yes	30% practical work report 70% written report
Botany	Vittoz P.	-	Yes	written reports : arithmetical mean
Our Future in the Past: Preparing for Social Challenges to Come	Varlet V.	oral 15 min	Yes	70% written report 30% oral exam
Remote Sensing and Geophysics: Search and Locate	Barone P.M.	written 1h	No	mark of the written exam
Forensic Soils	Le Bayon C.	-	Yes	written reports : arithmetical mean
Search Techniques and Exhumation	Leblond H.	written 1h	Yes	70% written report 30% written exam
Forensic Biology	Varlet V.	written 1h30	Yes	20% practical work report 80% written report

MODULE 3				
Courses	Responsible teacher	Type of evaluation		Final mark
		Exam	Validation	
Communication : Scientific Mediation and Website Conception	Goumaz-Donzallaz P. Varlet V.	-	Yes	50% oral presentations 50% website marks
Exploring the Human Psyche in the Context of Taphonomy : from Normality to Pathology	Berney S.	oral 15 min	No	mark of the oral exam
Forensic Medicine	Varlet V.	written 1h	Yes	50% participation in class 50% mark of the written exam
Forensic Toxicology	Thomas A.	written 1h	No	mark of the written exam
Forensic Imaging	Genet P. Egger C.	written 1h	Yes	50% participation in class 50% mark of the written exam
Forensic Anthropology and Odontology	Moghaddam N.	written 1h	Yes	50% participation in class 50% mark of the written exam
Forensic Genetics	Castella V.	written 1h	No	mark of the written exam

MODULE 4	
Master Research Project	1/3 written report 1/3 oral defence 1/3 practical research work

The pandemic has shown us that circumstances beyond our control may require us to make the following adjustments / adaptations to study plans during the semester:

- possibility to switch from one mode of teaching to another (face-to-face <-> distance, synchronous <-> asynchronous, switch to co-modal teaching where it was not initially planned).
- change / modification of evaluation modalities, without inducing derogations from the Study Regulations (oral <-> written, exam <-> validation, individual work <-> group work, practical work <-> theoretical work, face-to-face evaluation <-> online evaluation, etc.)
- alternative or time-shifted modalities for teachings, internships, practical work, fieldworks and camps that could not take place or teachings that could no longer take place in the form initially planned.

Students are invited to consult this document regularly (Study Plan & Evaluation Procedure)
