

MODULE 1
Theoretical part
Final mean : Average weighted by coefficients of the grades for all the courses

MODULE 2
Practical part : First Step Project
Final mean : Arithmetic average of the grades for the practical assessments

Success conditions for modules 1 and 2

- Module 1 : final mean $\geq 4,0$

and

- Module 2 : final mean $\geq 4,0$ and no more than one grade under 4,0

MODULE 3
<u>Choice of one field of specialisation among the four proposed :</u>
- Immunology and Cancer
- Neuroscience
- Pharmacology and Toxicology
Theoretical part
Final mean : Arithmetic average of the theoretical course assessment grades
Practical part
Final mean : Arithmetic average of the practical course assessment grades

Success conditions for module 3

Theoretical **and** practical final mean $\geq 4,0$

MODULE 4
Master Thesis
Written report / oral defence / practical research work

Success conditions for module 4

Arithmetic average of three grades on the Master Thesis $\geq 4,0$

According to the "Règlement d'études de la Maîtrise universitaire ès Sciences en biologie médicale approuvé par la Direction de l'UNIL le 29 juin 2021".
