

Séminaire UNIL - Brocher

Clinical stem cell initiatives: the emerging economies

Dr. Dominique McMahon

Post-doctoral fellow at the Dalla Lana School of Public Health
University of Toronto

Dr. Dominique McMahon completed her doctoral studies at the Institute of Medical Sciences and McLaughlin-Rotman Centre for Global Health at the University of Toronto.

McMahon's current research explores the clinical stem cell initiatives of China, Brazil and India to better understand the challenges and legal, social, and ethical implications of moving stem cells from lab to clinic in developing countries.

Her previous research has included a comparative analysis of regenerative medicine innovation in China, Brazil and India.

McMahon's research expertise includes biotechnology, science innovation in developing countries, medical "tourism".
