UNIL is a leading international teaching and research institution, with over 5,000 employees and 15,500 students split between its Dorigny campus, CHUV and Epalinges. UNIL and CHUV encourage excellence, individual recognition and responsibility. The Faculty of Biology and Medicine (FBM) and the Lausanne University Hospital (CHUV) are inviting applications for a position of:

**Head physician and Associate Professor**  
**Direction of the trauma Unit**  
**within the Orthopaedic Trauma Service (OTR)**  
**of the Department of the Musculoskeletal System (DAL)**

**Starting date:** to be agreed  
**Place:** Lausanne, Switzerland

The OTR Service provides highly specialized care in the field of adult musculoskeletal trauma (excluding the spine and hand), enabling us to deal with the most complex situations on a permanent basis (24/7), such as polytrauma, complex joint fractures, open fractures and reconstruction, preservation of limbs, minimally invasive surgery, and gerontotraumatology. Fracture sequelae, including reconstruction (callus, pseudoarthrosis, revision and complications of fracture surgery) are part of our mission.

On the academic side, we are strongly involved in teaching (pre-graduate, post-graduate, continuing or interprofessional), and we carry out an important research activity including clinical studies, basic and translational research, ranging from the analysis of molecular and cellular mechanisms at the bone and cartilage level to the study of new joint implants, in order to develop new strategies for the modern diagnosis, follow-up and treatment of osteoarticular diseases.

**Main missions:**
1. Management of the Trauma Unit  
2. Personal participation in the management of OTR patients and on-call adult trauma service  
3. Contribution to and development of research and pre- and post-graduate teaching activities  
4. Management activities within the OTR Service and the DAL Department

**Desired profile:**
- Federal medical degree (or Mebeko equivalent), MD or MD-PhD  
- Specialization in orthopedic surgery and traumatology of the musculoskeletal system (ISFM or Mebeko equivalent)  
- Extensive clinical experience in adult orthopedic and trauma surgery (excluding spine and hand)  
- Professorial level academic knowledge with proven teaching practice  
- Ability to develop clinical research programs that can be supported by expert external funding  
- Demonstrated organizational, interdisciplinary collaboration, networking and human resource management skills  
- Good knowledge of French (LM or minimum B2, C1 ideal) or ability to acquire it quickly.

Further information may be obtained from Prof. Prof. Alain Farron, Head of the Department.

Applications, in English, will include a motivation letter, a curriculum vitae, a copy of the five most relevant publications, as well as names and contact information of three referees, a brief statement of research interests and teaching experience and a copy of diplomas. They should be submitted online by **November 15th, 2021 (23:59 GMT+1)** to wwwfbm.unil.ch/releve/application/ as a single PDF file.

The job description is available on the same link (or QR code).

We offer a pleasant working atmosphere in a multicultural, diverse and dynamic academic environment. There are possibilities for continuing professional education and a multitude of activities and other benefits to discover.

*UNIL and CHUV are committed to promoting gender equality and diversity and strongly encourage applications from female candidates.* www.unil.ch/egalite
