Additionally, the HEC Research Office keeps the Faculty's researchers up to date with new funding programs, notification of deadlines for calls for proposals and the latest innovations in HEC & UNIL research services.

SNSF represents a very interesting funding organization with a success rate of 36.5% (category Human & Social Sciences, in 2022) compared to its equivalents in the USA (NSF/SBE, 22%, 2022) and the UK (UKRI/ESRC, 29% in 2022). UNIL also provides a large range of funding support services - browse all of them here! For support in proposal elaboration for EU funding programs, click here!

Additionally, the HEC Research Office keeps the Faculty's researchers up to date with new funding programs, notification of deadlines for calls for proposals and the latest innovations in HEC & UNIL research services.

Several financial and economic databases are made available by the CEDIF to our researchers and students.

To store your research data safely, or for HPC programming support, the DCSR is at your service!

When it comes to data management, an effective Data Management Plan (DMP) can help you save time and anticipate issues. Find DMP templates and other useful support for data management here!

Our Faculty offers a copy-editing service to all HEC researchers. To benefit from this service, please address your request to Vincent Vandersluis by email, at Vincent.Vandersluis@unil.ch.

A Statistics Consulting Service is also offered to all researchers who would like to receive feedback on their research project from a researcher who is specialized in advanced statistics. For more info, click here!
