

IT service

FBM IT Service

The Department of Immunobiology is a member of the [FBM IT Platform](#). As such, it can enjoy the benefits provided by the FBM IT Service (Si). This includes:

- Local IT support
- Hardware and software purchases
- Common infrastructure
- Specialized applications

All the practical information and a full description of the services are available on the FBM IT Service's website: wwwfbm.unil.ch/si

IT support

If you have any question about IT (support, software and hardware purchases, printers and consumables, repairs, network) :

Alexander Miesch

Local IT manager
