

ISTE & IDYST Zoominar Series

Spring Semester 2021

- 22 Feb
IDYST **Shlomy VAINER** – Chronology of landscape evolution within the intraplate boundaries of southern Africa
- 1 March
ISTE **Orla BATH-ENRIGHT**– Experimental Taphonomy: our unique window into understanding soft tissue fossil preservation
- 8 March
IDYST **Ludovic RAVANEL** – Climate change and high mountain: towards the disappearance of ice on the north faces?
- 15 March
ISTE **Claudia JESUS-RYDIN** – Levelling the playing field in the geosciences: ERC and EGU examples
- 22 March
IDYST **Andy BAKER** – Reconstructing fire history from cave stalagmites
- 29 March
ISTE **Caroline DORN** – Diversity of Super-Earths
- 12 April
IDYST **Emilia JAROCHOWSKA**– Ultrastructural insights into conodont growth and biomineralisation
- 19 April
ISTE **Dave PATTISON** – Equilibrium and kinetics in metamorphism
- 3 May
IDYST **Adrienne GRÊT-REGAMEY**– Ecosystem services in mountain regions
- 10 May
ISTE **Sarah AARONS** – Titanium isotopes constrain magmatic conditions at the Hadean-Archean transition
- 17 May
IDYST **Daniela DOMEISEN** – Weather predictions on timescales of weeks to months: Where do we stand?
- 31 May
ISTE **Nicolas BRANTUT**– Dynamics of faulting in the crust: A view from the laboratory
