

For students of exercise and sports science

Trainee Swiss Cycling

Swiss Cycling has been one of the most successful Swiss sports federations for years. It is home to 8 different disciplines with a wide range of requirements. Swiss Cycling not only invests in elite sports, but is also strongly committed to young talent, education, popular sports and sports science.

Short description

- Assistance in the implementation and evaluation of sports science projects such as performance diagnostics or performance monitoring
- Assistance with various measures to promote young talent, such as 3T (Talentreff Tenero) or PISTE (Prognostic Integrative Systematic Trainer Assessment)
- Assistance and support in the training of Youth + Sport leaders, trainers and commissaires
- Insights into other areas of Swiss Cycling such as popular sports, communication or marketing

General learning objective

- Deeper practical insight into the multifaceted work of the federation
- Independent implementation of sub-projects in the departments of science, junior staff and education
- Establishment of an own professional network, through contact with the various stakeholders in Swiss sport

Administration

- Start of internship
 - From May: 3 months
 - From August: 3 months
 - From November: 6 months
- Compensation: none
- Head: Lucas Schmid

Interested?

Send your complete application documents (letter of motivation, CV, performance records) to the address below. Please indicate your preferred start date for the internship.
