

**INAUGURAL MEETING  
SPECIAL RESEARCH INTEREST GROUP**

**Date:** January 31<sup>st</sup>, 2019, 09:00 -17:00

**Place:** University of Fribourg, PER22 Joseph Deiss, Bvd de Pérolles 90

**Aims:**

Cognitive and affective neuroscience of pain is a developing field of science, interconnecting psychology, medicine and the neurosciences. The aims of the inaugural meeting of CANoP (Cognitive and Affective Neuroscience of Pain; a special interest group of the Swiss Society for Pain Research) are to:

- Stimulate scientific exchanges among researchers in Switzerland who use cognitive and affective methods to investigate pain;
- Promote a scientific network and collaborative initiatives;
- Enhance the visibility of the different groups and obtain an overview of current research in this field in Switzerland.

We welcome students, clinicians and researchers from any related field.

**Poster submission:** until January 1<sup>st</sup>, **Registration:** until January 15<sup>th</sup>, 2019 both at [chantal.rodriquez@unifr.ch](mailto:chantal.rodriquez@unifr.ch)

**Costs:** Full price: CHF 80.- , reduced price: CHF 45.-

**Scientific committee:**

Prof. Dr. C. Martin Sölich; PD Dr. P. Schweinhardt, Dr. C. Berna Renella

We provide an attendance certificate for continued education. Validation for **LNDS students** according to the specific instructions in the poster guidelines.

**PROGRAM**

<b>09:00</b>	<b>Welcome words from the scientific committee</b>
<b>09:15</b>	<b>Keynote speaker conference: Prof. Dr. Christian Büchel</b> <i>University Medical Centre Hamburg-Eppendorf, Department of Systems Neuroscience, Germany</i>
<b>10:00</b>	<b>Coffee break</b>
<b>10:30</b>	<b>PD Dr. P. Schweinhardt (UNIZH)</b> <i>The interaction between pain and reward</i>
<b>10:45</b>	<b>Prof. Dr. C. Martin Sölich &amp; Dr. K. Ledermann (UNIFR &amp; UNIZH)</b> <i>Dopamine function and reward processing in chronic pain</i>
<b>11:00</b>	<b>Dr. J. Chabwine (UNIFR)</b> <i>The GABAergic system as a potential target in cognitive and emotional aspects of (chronic) pain</i>
<b>11:15</b>	<b>Yoann Stussi</b> on behalf of Prof. Dr. D. Sander's lab ( <b>UNIGE</b> ) <i>Enhanced Pavlovian aversive conditioning in humans: Possible implications for pain treatment</i>
<b>11:30</b>	<b>Dr. M. Meier (UNIZH)</b> <i>Pain-related Fear – one or many?</i>
<b>11:45</b>	<b>Lunch break and poster session</b>
<b>13:15</b>	<b>Keynote speaker conference: Prof. Dr. Irene Tracey</b> <i>Nuffield Department of Clinical Neurosciences, University of Oxford, UK</i>
<b>14:00</b>	<b>Prof. Dr. P. Vuilleumier (UNIGE)</b> <i>Cognitive and affective modulations of pain processing</i>
<b>14:15</b>	<b>Prof. Dr. C. Corradi Dell'Acqua (UNIGE)</b> <i>From Social Neuroscience to clinical practice. The many neural facets of professional pain management</i>
<b>14:30</b>	<b>Dr. N. Silvestrini (UNIGE)</b> <i>Investigating the interactions between pain and cognitive control</i>
<b>14:45</b>	<b>Coffee break</b>
<b>15:15</b>	<b>Dr. C. Berna Renella (UNIL)</b> <i>Cognitive pain modulations: from the lab to the clinic</i>
<b>15:30</b>	<b>Prof. Dr. J. Gaab (UNIBAS)</b> <i>Placebo without deception: Open label vs. deceptive placebo</i>
<b>15:45</b>	<b>Dr. M. Brügger (UNIZH &amp; ETHZ)</b> <i>Pain research involving hypnosis: knowns, unknowns and future perspectives</i>
<b>16:00</b>	<b>Scientific Speed Dating</b>
<b>16:45</b>	<b>Closing remarks</b>
<b>17:00</b>	<b>End of meeting</b>
