

WebCEF

CEFR assessment tool – Oral skills

Benchmark your language evaluation skills with your colleagues across Europe!

On this site, you as a language learner or language teacher will be able to create, upload and assess your own samples together with teachers and language learners across Europe. The assessments are based on the **Common European Framework of Reference**. Participating in the WebCEF community will enable you to use the CEF scales more in assessment situations and practice your skills in collaboration with others across Europe. You will have access to multiple assessments, which will also give you feedback on your own.

Front door: <http://www.webcef.eu/>

Back door: <http://webcef.open.ac.uk/main.php>

Benefits:

- › Familiarisation with CEFR (teacher & learner)
- › Standardisation with CEFR (teacher)
- › Transparency in assessment
 - Can be viewed by all stakeholders
 - Timed annotations
- › Assessing *for* learning
- › Descriptors available in various languages
- › Video recordings – can see facial expressions
- › Annotations can be made in language of choice

Elements missing:

- > Academic and professional samples
 - Presentations skills
- > Clear, timed annotations in showcase
- > Intercultural assessment
- > Teacher controlled environment
