THE 6 CARDINAL POINTS OF RESEARCH SERVICES AT HEC LAUSANNE

The fundamentals for our new researchers

1. **FUNDING**
   - **SNF:** Represents a very interesting funding organization with a success rate of 41% (2019) of all applications compared to its equivalents in the UK (24-29% 2020) and the USA (25% 2019). UNIL also provides a large range of funding support services - browse all of them here! For support for proposal elaboration for EU funding programs, click here!
   - Additionally, the HEC Research Office keeps the Faculty's researchers up to date with new funding programs, notification of deadlines for calls for proposals and the latest innovations in HEC & UNIL research services.

2. **DATA: SOURCES, SERVERS AND MANAGEMENT**
   - Several financial and economic database are made available by the CEPIS to our researchers and students.
   - To store your research data safely, or for HPC programming support, the PCER is at your service!
   - When it comes to data management, an effective Data Management Plan (DMP) can help you save time and anticipate issues. Find DMP templates and other useful support for data management here.

3. **PUBLICATIONS**
   - SERVAL is the official repository to which UNIL researchers upload their publications and notices, either in private or Open Access mode.
   - Learn more about UNIL's Open Science strategy and SERVAL here. For detailed practical info, the Informal website is a for you!

4. **LABORATORY FOR BEHAVIORAL EXPERIMENTS**
   - With its excellent infrastructure consisting of eight laboratories, LABEX is the behavioral research laboratory of our Faculty. Find out more on the LABEX website!

5. **LEGAL REVIEW FOR RESEARCH CONTRACTS**
   - Got a contract regarding research activities? Congratulations! Prior to your signature, the contract has to be submitted to the PACT Office for their legal review. Their experts will ensure compliance with legal and ethical principles, such as intellectual property.

6. **COPY-EDITING AND STATISTICS CONSULTING**
   - Our Faculty offers copyediting services to all HEC researchers. To benefit from this service, please address your request to Vincent Vandersluis by email at Vincent.Vandersluis@unil.ch
   - A Statistics Consulting Service is also offered to all researchers who would like to receive feedback on their research project from a researcher who is specialized in advanced statistics. For more info, click here.
