1- Colloquium/Annual Commission Meeting in Poznan, 11th to 14th of August 2013

The colloquium was hosted by the Institute of Socio-Economic Geography and Spatial Management Adam Mickiewicz University, Poznań (Poland). The colloquium was opened by the President of the City of Poznan, the Vice Rector of Adam Mickiewicz University of Poznan, and the Dean of the Faculty of Geographical and Geological Sciences. The two distinguished keynote speakers were:

- **Professor Peter Nijkamp** (Free University of Amsterdam, Netherlands):
Cyber city in a complex world
- **Professor Marek Ziótkowski**: Adam Mickiewicz University, Poznań, Poland)
Twenty years of transformation: Transformation of Polish society, transformation of Polish cities.

The meeting was a great success thanks to the organizers and thanks to the quality of the presented papers. In total there were 80 delegates representing 15 nationalities. There were 11 papers sessions (49 papers), one business meeting, and two very interesting field trips/scientific excursions inside and around Poznan (and 3 sessions of Piano thanks to Prof. Jerzy Parysek). The excursion linking Poznan to Krakow through the Silesian region was rainy but with a nice ambiance and an informative visit to this urbanized industrial region.

Thanks again to the organizers, **Professor Jerzy Parysek**, **Professor Lydia Mierzejewska** and to their team from the Institute of Socio-economic Geography and Spatial Management of the Adam Mickiewicz University for their wonderful organization and their constant willingness to help everybody during this memorable meeting.
