

Early Career Researcher International Network Development Series

Session on Sustainable Development Goal 13: Climate Action

The [Worldwide Universities Network](#) (WUN) – of which your university is a member – in collaboration with the [United Nations Sustainable Development Solutions Network](#) (SDSN) and the [United Nations Educational, Scientific and Cultural Organization](#) (UNESCO) Education Section, is holding a series of free virtual networking workshops, each thematically focused on a UN Sustainable Development Goal. The workshops are intended to bring together early career researchers (ECRs) from all around the world interested in establishing connections to colleagues in their field.

This networking workshop will focus on [Sustainable Development Goal 13: Climate Action](#).

Note: Although these networking workshops are primarily for the benefit of WUN early career researchers*, a limited number of places will also be available for middle and senior career researchers to further enhance networking opportunities.

* Defined as a researcher who is either in the final year of their PhD (or equivalent) program or is within five years of having been awarded the degree. The age of the researcher has no bearing on the definition, and career breaks within this period do not count against the total.

Program

Each networking workshop lasts for 90 minutes, and will be launched by internationally distinguished speakers who will provide an overview of the major research opportunities and challenges in the broad topic domain. Following the introductory speakers, participants will break up into virtual meeting rooms, which will be set up according to the research interests (within the session's SDG theme) indicated by participants during the registration process, so that they can develop their international networks and collaborations.

We are pleased to share the following program for our upcoming session on SDG 13: Climate Action.

PART 1: INTRODUCTORY SPEAKERS ([click on name to view full bio](#)):

[Mr. Ovais Sarmad](#)

Deputy Executive Secretary (UN Assistant-Secretary General)

United Nations Framework Convention on Climate Change

[Professor Jacques Dubochet](#)

Emeritus Professor of Biophysics and Nobel Laureate

University of Lausanne

PART 2: QUESTION AND ANSWER SESSION

PART 3: NETWORKING BREAKOUT ROOMS

Registration Information

This networking workshop will be held on **27/28 January** depending on your location ([click here](#) to see your local time for this event). The program will run for 90 minutes.
