

**FOREIGN INVESTMENT IN AFRICA: GAINING DEVELOPMENT MOMENTUM**  
**UNIVERSITIES OF LAUSANNE AND GENEVA**

[www.investmentafrica.ch](http://www.investmentafrica.ch)

**OCCASIONAL AND WORKING PAPERS**

One of the main purposes of the project is to stimulate and contribute to the debate on the legal questions and challenges related to foreign investment in Africa. We are delighted to upload onto the website short papers (ideally 2 to 5 pages) that provide an input for such a debate. We welcome in particular short notes on

- (a) arbitral awards or domestic decisions related to investment in Africa;
- (b) legislative or regulatory developments within the jurisdictions of African States;
- (c) activities and initiatives of African organisations; and
- (d) treaty practice of African States and African organizations.

These notes may be based on master or doctoral theses, on papers given at conferences or other public events, or on the professional experience of the authors.

We reserve the right to decline the uploading of notes both on substantive or formal grounds.
