

**CV and LinkedIn profile for the Life Science Industry sector workshop.
September 25th, 2020. UNIL-Epalinges campus.**

9:00-12:00 : Workshop (for registered participants only, 14 participants maximum). Room B305.

This workshop aims to provide researchers in the life science sector tools to develop a CV and LinkedIn profile that is adapted for positions in the industry.

The workshop has been developed by members of Skills for Scientists who have a background in life science research and career coaching . The team have undertaken qualitative and quantitative research in the last year via interviews with hiring managers, consultant recruiters, talent acquisition managers and chief scientific officers from start up, mid-size and multinational companies in Switzerland that employ candidate's with a PhD in life sciences. The information from these interviews together with the teams personal research and professional consulting experience have been compiled to provide consensus and up to date information for the workshop.

12:15-12:45: Informational seminar by Covance (open to CIIL members). Room B301

A senior talent acquisition officer and lead scientist from Covance Geneva will give us insights into job opportunities and what is it like to work at Covance.

14:00-17:00: CV checks by Covance – senior talent acquisition officer. Room B305

20 minute slots, reserved for workshop registered participants that are interested in having their CV checked by an industry talent acquisition professional.
